

Manthan Keim

AUTOMATION ENGINEER · CARMEL, INDIANA · OPEN TO SOFTWARE & DATA ENGINEERING ROLES

📞 +1 (832) 908-7421 | ✉️ keimmanthan@gmail.com | 🏠 manthankeim.com | 🔗 manthankeim | in manthankeim

Summary

Automation Engineer with nearly two years building scripts, integrations, and file-transfer workflows in healthcare data environments. MS graduate from Purdue with research experience in NLP, data science, and open-source platforms. Seeking software, platform, backend, and data engineering roles where reliability, automation, and continuous learning matter.

Experience

Zotec Partners

Carmel, IN

AUTOMATION ENGINEER

Aug. 2024 – Present

- Automated manual file-transfer and operational workflows, reducing errors and improving throughput across healthcare data pipelines.
- Built and maintained HL7 integrations using Mirth Connect for reliable clinical and operational data exchange.
- Analyzed HL7, EDI X12, Excel, and image-based file formats to validate data integrity and resolve production issues.
- Collaborated with clinical teams to troubleshoot pipeline failures, document repeatable fixes, and improve process reliability.

Purdue University

West Lafayette, IN

RESEARCH FELLOW, RCODEI

Aug. 2021 – Dec. 2024

- Studied coding behavior and trace data from 500+ participants on IronHacks.com to improve the open innovation platform.
- Shipped ranking metrics, tutorials, and platform features using React, Firebase, and serverless infrastructure.
- Built collaboration tooling for developers including real-time messaging, forums, and private notes.

Zotec Partners

Carmel, IN

FILE MANAGEMENT INTERN

Jun. 2022 – Aug. 2022

- Resolved 94+ ServiceHub tickets involving HL7 files, pipeline logs, payment data, and client credentials.
- Created and maintained 1,000+ MOVEit tasks for internal file transfers across client systems.
- Recovered from an overnight process failure by authoring XML scripts and supporting migration from MOVEit to GoAnywhere.

Education

Purdue University

West Lafayette, IN

M.S. IN TECHNOLOGY, LEADERSHIP & INNOVATION

Aug. 2021 - Dec 2024

- Research Areas: Software Engineering, Digital Innovation, and Open Source projects
- Coursework: Natural Language Processing, Data Mining, Artificial Intelligence, Foundation of Innovation Studies, Human Computation, and Big Data Analytics

Guru Gobind Singh Indraprastha University

Delhi, India

B.TECH. IN COMPUTER SCIENCE

Aug. 2017 - May 2021

- Achievements: Two times Hackathon winner and Founded Hack Club to teach students
- Coursework: Data Structures, Algorithms, Computer Networks, Computer Graphics, Software Engineering, Theory of Computation, Computer Architecture, OOP with C++, Computer Design

Skills

Languages

Python, JavaScript, SQL, C++, Bash

Automation & DevOps

Git, GitHub Actions, Docker, CI/CD, API development, scripting, test-driven development

Healthcare Data

HL7, Mirth Connect, EDI X12, file transfer workflows, pipeline troubleshooting

Data & ML

NLP, data mining, web scraping, Selenium, Flask, research pipelines

Platforms

Linux, Firebase, React, Kubernetes fundamentals, open-source contribution

Selected Projects

Reddit Flair Predictor

PYTHON, NLP, SCIKIT-LEARN

2020 – 2021

Built an NLP model to predict the most relevant flair from text content.

KUBERNETES, CROSSPLANE

2023

Developed a CLI tool to generate Kubernetes manifests for Crossplane composition functions and cloud-native tooling.

JAVASCRIPT, FULL-STACK

2021

Developed a full-stack web application with modern deployment patterns.

PYTHON, ML

2021

- Research-oriented ML project for misinformation and fake news classification.

Portfolio & Learning Log

GITHUB PAGES, HTML, CSS

2026

- Maintains a public portfolio and weekly learning journal to document ongoing skill growth.
- Portfolio: manthankeim.com | Log: github.com/ManthanKeim/learning-log

Awards & Leadership

KubeCon Contributor Celebration awardee (2021, 2023) | Open Source Summit scholarship | Microsoft Student Partner (2021) | Founder, Hack Club MAIT | TEDx organizer | GirlScript India Hackathon — 1st runner-up | Smart India Hackathon — Microsoft track
